Just to put on your radar: I hear Pebble May have concerns about mitigation requests by the Corp. ACOE thought they would run to the GOA/ leadership, but I haven heard anything. PPL rarely reaches out to me, however FYSA

Thanks for the heads up. USACE called me this week to ask if the State was discussing mitigation with PLP. I confirmed we are. DEC and ADFG have provided PLP comments on their original (published) proposed mitigation.

USACE asked me if the state had seen new mitigation plan? I said no.

I knew you had it handled. If you think I can help w mitigation ideas let me know
