RE: Judges Follow Up

To Ritacco, Gina M (GOV)

You forwarded this message on 2/26/2019 4:25 PM.

Hi Gina,

I did send over all the public letters and comments for the non-nominated applicants; I'm assuming you saw those in the .pdf file that I emailed to you? Let me know if they are too hard to locate in that large file.

Assuming you received what I sent earlier, it sounds as though you also are now requesting additional communications submitted about the non-nominated applicants. During its investigative process, the council solicits communications relating to the qualifications of the applicants and also sometimes receives unsolicited communications relating to applicants' qualifications from sources who request confidentiality. Access to these records is governed by Article X of the AJC's bylaws (posted on our web site and attached for your convenience). Communications solicited by the council during its investigative process, as well as unsolicited communications where the source has requested confidentiality, are confidential under the AJC's bylaws. Therefore, I will not be able to supply those communications to you.

Please let me know if I have misunderstood your request. If you have time today, I can give you a quick call to explain some of this. Alternatively, I will be in Juneau tomorrow and could stop by your office to answer any questions or explain any part of the AJC's process. Please let me know if you'd like to speak about this in person.

Best,  
Susanne
