---

Hi Brett. Attached you will find a draft letter that we hope you and the Governor might consider sending to the CEO of Wheaton. I have also attached the letter that Wheaton received from NRDC and several other anti development organizations. I will say that the letter definitely has given Wheaton pause on potentially investing in Alaska and the Pebble project. We truly believe that a letter from the Governor will make a huge difference to the Wheaton executive team and their board.

Thank you so much, Brett. Hope to hear from you soon.

~Shalon
