

If you don't mind just shooting me a quick text once the email is sent, that would be fantastic. Again, we truly appreciate your guys' support and your willingness to reach out to Pence's office.

Call me if you have any questions or concerns.

Thank you,
Shalon

Good afternoon, Jon. I am contacting you today on behalf of the Mike Dunleavy for Governor campaign in Alaska. Senator Mike Dunleavy is the Republican in the race and is also the leading candidate. Senator Dunleavy was hoping to get in contact with Vice President Pence to discuss some issues with the EPA that could have serious impacts on resource development project across the United States. As you may know, in 2014, the EPA with authority given under the Clean Water Act, issued a proposed veto (Proposed Determination) regarding the Pebble Mine. This is a project that, at the time, had not even put forward a plan for the mine. Such action has never before been taken in the history of the Clean Water Act. This issue is of major concern to Senator Dunleavy. Action like this sets a very dangerous precedent and could be used by future administrations to completely block resource development projects across the board. It is my hope that we can get

C Devine PRA-0001

Vice President Pence and Senator Dunleavy connected to discuss this issue in greater detail. This is incredibly important not only to Alaska but to resource states across the country.

Of course, I recognize that it is difficult to get time speaking with the Vice President. I appreciate any assistance you could lend in securing some time for the two of them to connect.

I am happy to provide you more information, if that would be helpful in getting on the Vice Presidents calendar. Thanks so much for your time and attention to this request. I look forward to hearing from you.

Thank you,
Brett Huber
