Subject: EPA says Pebble may be riskier than study says, rekindling hope for mine foes - Alaska Public Media
Date: Wednesday, July 03, 2019 3:33:18 AM

Another article to get the blood boiling and another reason to get in touch with Leopold or Hladick ASAP on the veto. That letter to the Corps from EPA/Hladick totally contradicts everything the Governor was promised last week by the President.

It's scary because Hladick holds the responsibility and is now the decision maker on the withdrawal.
