

Subject: Cut Alaskans Throats

To the Legislature:

I've just heard about the most cruel, evil thing I've ever seen the Legislature do, and I've seen a lot.

The conference committee just voted to remove the \$1000 stimulus.

Then they made half of the already cut PFD contingent upon getting votes to spend the CBR money.

Then they made the CV money contingent upon getting votes to spend the CBR money.

To those who oppose this awful political power play designed to slam the private sector, PLEASE don't vote to give them the CBR.

Don't give in to blackmail.

More importantly, don't vote to accept the budget that the conference committee has put out.

The 4 legislators that voted for this concept completely lack integrity and what I really want to say to such evil people I will restrain myself from saying.

God will get the vengeance.

Sincerely,

.

Lance Roberts
