

## PURPOSE-BUILT EQUIPMENT

---

New purpose-built highway tractor and trailer equipment will be purchased and maintained for this operation to maximize safety and efficiency. Equipment will operate within the legal limits set by the Alaska Department of Transportation & Public Facilities (DOT&PF).

- Highway tractors pulling two covered side-dump trailers that are purpose built to maximize safety and efficiency
- Total vehicle length will be 95', similar to double fuel and double cargo trailers used in Alaska today
- Payload of about 50 tons and total gross vehicle weight of 82.5 tons per vehicle
